chain risks

Earn
stakeholder
trust

Reduce
your waste

Improve
environmental
performance

Environmental credibility is increasingly essential to winning bigger contracts in every sector.

The **Green Goals Programme** is our new six-month collaborative initiative, created and delivered by 2030hub Director Stephen Sykes, to provide support and guidance in the development and implementation of your organisation's own **Environmental Management System (EMS)**.

Launched to accelerate private sector support of Liverpool City Region Year of Environment 2019, the Green Goals Programme creates a new business-friendly route to gaining an EMS aligned to the increasingly influential UN Sustainable Development Goals, whilst preparing your business for the accreditations to **ISO 14001, BS 8555** or **EMAS**.

2030hub

The Green Goals Programme comprises 6 half day workshops at our Liverpool city centre office, where you will benefit from peer-to-peer learning and networking, augmented by an additional three days of on-site company specific support:

Session 1: 26 June 2019

- Benefits of improved environmental management
- Introduction to environmental management standards
- Gaining commitment and demonstrating leadership

Session 2: 24 July 2019

- Establishing context within your business
- Identifying, understanding and documenting interested parties' requirements
- Identifying and understanding environmental impacts
- Environmental legislation and the regulators

Session 3: 28 August 2019

- United Nations Sustainable Development Goals
- How to access an organisational carbon footprint and develop a carbon management plan
- How to compile a register of compliance obligations

Session 4: 25 September 2019

- Setting objectives
- Introducing environmental management programmes
- Roles, responsibilities and awareness

Session 5: 23 October 2019

- Implementation and communication
- Operational control
- Emergency preparedness

Session 6: 20 November 2019

- Internal Auditing
- Non-conformance and corrective action
- Management review
- What is involved in the accreditation process

3 days on-site support

1. Conducting baseline review
2. Documenting baseline review
3. Pre-certification audit

Unlimited remote support

The 2030hub team provides email and telephone support whenever you need it during the programme.

Only £2,500 + VAT

Save 50% over a typical EMS implementation programme and with up to 2 attendees per company.

Places are limited so please book quickly to reserve your place.
